CAREER OBJECTIVE

A creative and detail-oriented graphic designer and web developer with six years of professional experience in designing visually compelling graphics and developing user-friendly websites. Seeking to leverage my expertise in design principles, front-end development, and user experience to contribute to a dynamic team and drive successful digital projects. Committed to delivering innovative solutions that exceed client expectations and enhance brand identity.

WORK EXPERIENCE

Senior Graphic Designer

Strategic Exhibitions & Marketing - Dubai | February 2025 - Ongoing

- Developed and executed on-site exhibition designs for the Annual Investment Meeting (AIM) in coordination with the Ministry of Foreign Trade.
- Created comprehensive brand guidelines from scratch for major events and exhibitions, ensuring cohesive visual identity across all marketing channels.
- Designed and produced event marketing materials, on-site branding, printing collaterals, and digital assets to support large-scale campaigns.
- Handled multiple design projects simultaneously, meeting tight deadlines while maintaining high creative and technical standards.
- Ensured all creative deliverables complied with official branding, communication, and design standards, contributing to the success of international and government approved events.

Graphic Designer & Web Developer

Safecare Technology - Abu Dhabi | February 2022 to February 2025

- Lead the design and development of packaging for medical products, ensuring compliance with industry regulations and brand standards.
- Write clean, well-documented, and efficient code in HTML, CSS, and JavaScript.
- Develop and maintain WordPress eCommerce websites using WooCommerce and other relevant plugins.
- Conduct market research to stay updated with industry trends and incorporate innovative design solutions into packaging and branding.
- Customize themes and plugins to meet the specific needs of each project.
- Optimize websites for performance, speed, and SEO.
- Collaborate with designers to translate mockups and wireframes into functional and visually appealing web pages.
- Optimize websites for maximum speed and scalability.
- Develop visual concepts and graphics for various purposes, such as branding, marketing materials, and social media
- Design for print materials such as brochures, posters, business cards, and other marketing collateral.
- Collaborate with designers, content creators, and other developers to deliver high-quality projects.
